PRASHANT KUMAR TIWARI

CREATIVE TECHNOLOGIST | TECHNICAL 3D GENERALIST

Lagos, Nigeria · thecuriouspolygon@gmail.com
linkedin.com/in/prashantktiwari · artstation.com/prashantktiwari

I connect design, engineering and production to turn ambitious ideas into visual experiences and repeatable workflows. My work spans drone light shows, procedural 3D, modular environments, XR and creative tooling.

EXPERIENCE

Head of Operations · Confidential operator | 2026-present

Developed and coordinated operations documentation, inspection preparation and demonstration readiness. Helped secure the company's NCAA RPAS Operator Certificate in October 2026. The operator certification belongs to the company.

Creative Head · Airbotix Technology | March 2023-April 2026

Built and led a Blender / Geometry Nodes drone-show pipeline supporting 150+ shows involving 750+ drones. Led 10+ designers through review checkpoints, workload planning and training. Standardised timing, transitions and assets for repeatable delivery under tight deadlines. Coordinated engineering and creative requirements; developed Qt/QML and C++ interface toolkits and cross-software R&D workflows.

Level Designer · Oh My Verse (remote) | October 2021-June 2022

Designed 290+ Golfcraft levels compatible with the in-house physics engine and Decentraland SDK. Developed modular 3D assets and a Blender add-on to streamline production; collaborated with the art director on custom assets.

Blender Consultant · Freelance (remote) | Project based

Created Blender-USD environments for NVIDIA Omniverse and used Isaac Sim for robotics simulation. Developed procedural assets for precision farming. Created an XR convocation setup for 500+ attendees with an automated camera flythrough and a Blender environment containing 400+ rigged and animated humanoid characters.

TOOLS & CAPABILITIES

Blender · Geometry Nodes · Python · NVIDIA Omniverse · Isaac Sim · OpenUSD · Unity · Qt/QML · 3D design · modelling · rigging · PBR rendering · level design · UI/UX · creative production · pipeline design · team leadership

EDUCATION & RECOGNITION

BE, Computer Science · RGPV University | 2016-2020 · CGPA 8.23
Smart India Hackathon winner (2020) · Void Hacks AI/ML category winner (2019) · Decentraland Game Jam: 20th in winner list (2019).

Updated October 2026.
